## LETTER FROM THE CEO

Dear Friends & Well-Wishers,

It gives me great pride to announce the launch of Lavik Shanthi, our first residential project in Coimbatore. From my past experience working at HDFC I have seen the best in class projects all over India and with this project I am taking my learning's to produce, what I believe will be a very special building in Coimbatore. We have left no detail untouched. Our passion is in the detail. The objective is to create an apartment like no other; that a family would love to come home to.

Our philosophy at Lavik Estates is "designing lifestyles". So it matters to us how the layout of an apartment is going to be. Will there be sunlight? Are the bedrooms going to be comfortable? Are the living rooms spaces well designed so that people would enjoy spending time there? Is the vastu perfect? Are the tiles of the best design and quality we can find? How will a housewife spend time in this apartment and where would she like to spend that time? All these questions and more was what kept us working late into the night so that we could come up with an apartment that will be timeless. Today, and even 30 years from now people will be happy to live here.

With that, I would like to say thank you for taking the time to read this and to think about Lavik Shanthi. If you have any questions please do not hesitate to either reach me or any of my colleagues. We would be more than happy to spend time with you.

We look forward to welcoming you!

With best regards,

**Laxman D. Vaidya**
